10 HOME ELECTRICAL SAFETY TIPS

INCLUSION FLORIDA

Florida Center for INCLUSIVE COMMUNITIES FCIC

UNIVERSITY of SOUTH FLORIDA
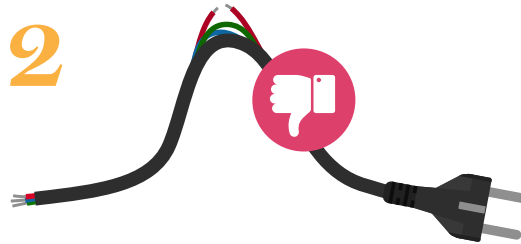

**1** Coil up and secure any excess cord length.

2 If cords or plugs show any sign of wear or damage, stop using immediately and replace.
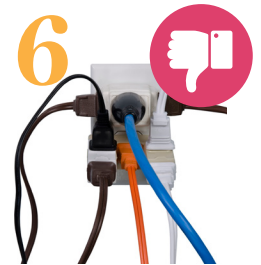

3 Use outlet covers to protect pets and children from potential harm.

4 Keep all electrical devices away from water.

5 Never run a cord under a rug, under a carpet, across a doorway, or anywhere it can be stepped on.

6 Don't overload outlets.

7 If you need to plug multiple items into an outlet, use a certified surge protector.

8 When unplugging an electrical device, make sure you pull the plug and not the cord.

9 Never unplug a device when your hands are wet.

10 Whenever you have any wiring that needs to be done, make sure to call a certified electrician.
