

Tools to Explore Residential Living in Florida

Residential Options of Florida (ROOF)

ROOF has information for individuals with disabilities and their families: <https://froof.org/housing-resources/>. This resource can help you to explore housing options and provides information to help with planning and navigating housing options. Whether it's planning for independent living, or navigating renting or buying a home, or maintaining your home.

APD has a provider and services search called the Florida Navigator tool that individuals with disabilities and their families can use to search for a wide variety of services by age group and service type. By selecting "Housing and Residential Options," you will find helpful links to state agencies and programs related to housing: <https://navigator.apd.myflorida.com/>. If you are currently enrolled with APD, you may also talk directly to your APD case worker: <http://apd.myflorida.com/>

The Agency for Persons with Disabilities (APD)

The Florida Supportive Housing Coalition (FSHC)

FSHC provides advocacy and resources to assist Floridians to obtain accessible housing <https://fshc.org/wp2/>
